Business Opportunities.

BUSINESS Upportunities.

\$20.00 MAY EARN \$1,000-QUICK PROFIT positively assured; \$20 invested now may result in earning \$1,000. This may seem incredible, but we can convince you. The lead and zinc industry is assuming proportions that make it one of the most profitable enterprises in the world. We represent a lead and zinc company of Joplin, Mo., the zinc metropolis of the world. The company has a positively proven developed mine; not a prospect, remember. Shafts are sink; drifting done, ore taken out, and work progressing rapidly on their 65-are tract. It's a big proposition. It has merit. We are offering a limited number of shares, just temporarily, at the extremely low price of 10 cents a share (par value \$1), fully paid and non-assessable; and the price of these shares will surely advance in a short time, thus assuring almost immediate profit through increasing value. The company wants to construct mills in a hurry to concentrate the immense bodies of ore now in sight; \$20 will buy 200 shares now. When mills are running and dividends being earned, 200 shares should be worth \$1,000. Not less than 100 shares will be sold at 10 cents a share, though instalment subscriptions will be accepted of one-half down and the balance in four equal monthly payments. National bank references as to officers and directors. Positive proof of value of property styen in report of State Mine Inspector, under three Governors, as well as other experts. Write us for full particulars, including maps, ore assays, mining engineers' reports, superintendent's reports, references, etc. DAVIES & CO. Suite 636 Marquette Bids., Chicago, Ill.
